---

## Profile Summary

Full Stack Developer with **4+ years of hands-on experience** building scalable and high-performance web applications using **Angular, React.js, Python, and Node.js**. Skilled in **RESTful API development**, UI engineering, and deploying applications on **AWS (EC2, S3, Lambda)**. Strong knowledge of distributed system design, performance optimization, and cloud-based architectures. Proven track record collaborating with architects and product teams in Agile environments to deliver reliable and secure enterprise solutions.

---

## Key Skills

**Frontend:** Angular, React.js, JavaScript, TypeScript

**Backend:** Python (Flask, FastAPI), Node.js, RESTful APIs, GraphQL

**Cloud:** AWS (EC2, S3, Lambda)

**Programming:** Python, JavaScript

**Databases:** MySQL, Redis

**System Design:** Distributed Systems, Scalable Architecture, Performance Optimization

**Soft Skills:** Problem Solving, Collaboration, Communication, Agile

---

## Work Experience

### Software Engineer — Chubb, Hyderabad (*Mar 2025 – Present*)

- Developing secure and scalable full-stack applications using Angular, React.js, Python, and Node.js.
- Implementing RESTful APIs and backend services for enterprise platforms.
- Building responsive and interactive UI aligned with business requirements using Angular and React.js.
- Working with AWS services (EC2, S3, Lambda) for deployment and processing.
- Collaborating with architects, product owners, and SMEs in Agile delivery.
- Enhanced application performance by optimizing API response times and reducing latency.
- Involved in end-to-end feature delivery including requirement analysis, development, deployment and support.

## **Software Engineer — Accenture, Hyderabad (Oct 2021 – Feb 2025)**

- Built scalable applications using Angular, React.js, Node.js, Flask, and FastAPI.
  - Developed RESTful APIs and optimized backend queries for performance improvements.
  - Deployed applications on AWS EC2 and S3 ensuring reliability and scalability.
  - Integrated third-party services to enhance functionality.
  - Participated in code reviews, Agile ceremonies, and architectural discussions.
  - Delivered clean, maintainable, and production-ready code.
  - Boosted system performance by refining server-side processing and improving data-handling efficiency.
  - Assisted in refactoring legacy modules to modern scalable architecture resulting in improved reliability.
- 

## **Education**

### **B.Tech — Computer Science Engineering (2021)**

MLR Institute of Technology, Hyderabad — **CGPA 7.9/10**

---

## **Certification**

**AWS Certified Cloud Practitioner**

---

## **Languages**

English | Hindi | Telugu
